

# FPW <WIRELESS>

Fully Digital Wireless Flatpanel Solutions

for Chiropractic, Veterinarian, & Private Practice offices

Taking digital radiography to the next level with our Wireless Flat panel technology is 2020 Imaging's cassette-sized FPW. Providing exceptional image quality, paired with advanced software features and functionality.

The 14x17 panel uses enhanced Gadolinium technology and has many unique features such as device-drop notification emails.

The FPW is ideal for use with both new x-ray rooms as well as a retrofit solution. The versatile panel utilizes the Opal-RAD Acquire software for image capture, manipulation, and sending. 2020's acquire software offers useful tools to enhance the image acquisition process, thus keeping your office in the forefront of x-ray technology.
